YUKON UTILITIES BOARD  
NOTICE OF APPLICATION AND  
WRITTEN PROCEEDING

Purchase Power Agreement

On November 11, 2017, Yukon Energy Corporation (YEC) filed an application seeking approval from the Yukon Utilities Board (Board) of a Purchase Power Agreement between YEC and Victoria Gold Corp. and StrataGold Corp. (Victoria Gold Corp. and StrataGold Corp., collectively known as "VGC Group") (Application).

Summary of Application

VGC Group has successfully completed environmental and Yukon Water Board reviews and permitting for the Eagle Gold Project to be located on the Dublin Gulch property approximately 40 kilometres north from Mayo. The PPA provides for the sale by YEC to the VGC Group of grid electricity required to operate the mine, with commencement of the delivery of grid electricity to VGC Group estimated to begin in March 2019. The PPA includes provisions whereby VGC Group will develop and own a 69-kV transmission line from the McQuesten substation to the mine. The McQuesten substation will be jointly developed by VGC Group and YEC but will be owned and operated by YEC. VGC Group, except as specified in the PPA, is responsible for all capital costs related to the McQuesten substation development.

Schedule of Proceeding

Seeing the limited scope of the Application, the Board is considering the Application in a written proceeding. Pending approval of the Minister, the Board has established a schedule for this proceeding. Due to the compressed timelines, unless the Board receives an objection to the participation of an intervener, the Board grants intervener status to any person wishing to participate in this proceeding. The schedule for this proceeding is as follows:

Action	Date
Information Requests to YEC	November 28, 2017
Information Responses from YEC	December 11, 2017
Argument	December 22, 2017
Reply	January 5, 2018

Public Inspection of the Application

The Application and supporting documents are available on YEC's website: [www.yukonenergy.ca](http://www.yukonenergy.ca)

The Application and supporting documents are also available on the Board's website: [www.yukonutilitiesboard.yk.ca](http://www.yukonutilitiesboard.yk.ca)

Clarification

Persons intending to participate, and who are uncertain as to the manner in which to proceed, may contact Ms. Deana Lemke, Executive Secretary of the Yukon Utilities Board, by telephone at 867-667-5058, in writing to Box 31728, Whitehorse Yukon, Y1A 6L3, by email to [yub@utilitiesboard.yk.ca](mailto:yub@utilitiesboard.yk.ca) or by fax at 867-667-5059.

Five New Boats  
To Be Built By The W.P. & Y. Route

150 To 200 Ship Carpenters Will Be Employed In The Work

Mr. G.C. Mellott is authority for the statement that the management of the W.P. & Y. Route have purchased five steamers from the Canadian Pacific, used formerly on the Stickene river by the C.P.R., and that they will be brought to Skagway and taken down for shipment to White Horse where they will be rebuilt with a view to the needs of river navigation. Hotline & Co., of Seattle, have the contract for the construction of the new boats and will have from 150 to 200 ship carpenters here inside of a month to commence active operations. The boats purchased by the W.P. & Y. Route are the Ogilvie, Hamlin and McConnell, which are now at Wrangel, the Dawson, now on the ways at Vancouver, which, though completed has never been launched and the Walsh, which has been lying in the Fraser river since the failure of the route up the stickene river to the Yukon. The purchase of these boats give the W.P. & Y. Route absolute control of fifteen first class river steamers, and will practically place the whole of next season's trans-

portation business to the interior in its hands.

Captain Sanborn will superintend the construction and see that they are put up in accordance with contract. The contract calls for their completion by 1st of June next.

A new freight tariff sheet will also be issued in a short time, which will do away with the present system of charges by weight and measurement, and in lieu thereof all freight will be classified and rated according to the grade and quality of the goods.

Among contemplated improvements for the rapid handling of freight a large derrick will be erected on the wharf at White Horse for loading and unloading machinery and other heavy material.

If it becomes necessary another addition to the immense warehouse will also be built, and as soon as the ground thaws sufficiently to allow work to be commenced an electric light plant will be installed for the purpose of lighting the depot, wharf and warehouses.
