SOLUTION AND SERVICES FOR REMOTE PATIENT CARE EXPANSION

Project Description: The Government of Yukon (YG) is issuing an RFP for a solution and services for remote patient care expansion. A key objective of YG is the improved care of chronic disease patients, especially providing enhanced tools that enable better self-management, yet still augmenting access to and capacity of health service providers in a territory that presents unique challenges. We are therefore seeking a partner who can work with us to provide a managed solution that includes patient monitoring software for clinicians, monitoring devices and software for patients, strong analytical and reporting capabilities and other supporting services that will build out our strategies for remote patient care. YG therefore wants to progress towards improved patient care with confidence and a purpose that we will utilize leading edge eHealth technologies.

Further, it is important that a vendor appreciates the challenges that Yukon faces, and is willing to work with Canada's smallest territory in terms of population, where the volume may not be high, but the chance to improve health outcomes is significant.

Submissions must be clearly marked with the above project title. The closing date for submissions is **February 22, 2018**. Please refer to the procurement documents for the closing time and location.

Documents may be obtained from the Procurement Support Centre, Department of Highways and Public Works, Suite 101 - 104 Elliott Street, Whitehorse, Yukon (867) 667-5385. Technical questions may be directed to Anne Aram at anne.aram@gov.yk.ca.
