*1901 News from the Whitehorse Star*

## Now Own the C.D. Co.

E.C. Hawkins, general manager of the W.P.&Y. Route, has received advices from London and Chicago to the effect that a deal for the purchase of the property of the Canadian Development company has been put through, to go into effect April 1st.

The purchase includes ten steamboats, all the terminal facilities at White Horse and Dawson, namely, warehouses, wharves, lighters and other apparatus, besides two extensive and complete shipyards, one at White Horse and the other at Dawson. The ten steamboats include the best on the river, namely, the Columbian, Victorian, Canadian, Yukoner, Sybil, Bailey, Zealandian, Anglian, Mary F. Graff and the Joseph Clossett.

Four other steamboats, clipperbuilt, are in process of construction, to be ready June 1, and to be melded to this

Yukon fleet, namely the Dawson, Ogilvie, Hamlin and McConnell, making a total of 14 boats for the passenger and freight business between White Horse and Dawson.

This practically gives the W.P.&Y. Route the control of all the waterways to the interior as it also controls the Atlin route, having purchased what was formerly the John Irving Navigation Co. operating the steamers Gleaner and Scotia and the Taku-Atlin tramway.

Speaking of the labor involved in putting all this vast amount of machinery into systematic working order for next summer General Manager Hawkins said:

"It means a complete reorganization of the service on lines tending to secure greater efficiency at a minimum of cost, which the consolidation of the two interests under one management will best

permit. It will admit of greater dispatch and better results for both freight and passengers.

"Improvements and innovations will be the order all along the line. Tariff sheets are now in course of preparation with a view to putting all the traffic on a strictly weight basis, thus doing away with what is known by all shippers as the weight or measurement ship's option system, which has caused a great deal of confusion in the past, as under it the merchant was never in a position to figure in advance on what the cost would be for delivering his goods at any point in the interior.

"It is also contemplated to substitute oil for wood, which, if found practicable for fuel, will shorten the running time of each steamer from 12 to 20 hours on each voyage. - Daily Alaskan.
